Orestis Ioannis Soultatis

Software Engineer

Software Engineer focused on .NET applications for industrial automation, machine vision, quality-control systems, and production reporting. Experienced with C#, ASP.NET Core, WPF, Windows Forms, SQL Server, Angular, TypeScript, REST APIs, SQL databases, and PLC-connected workflows.

Freelance Software Developer

Selected industrial software projects | 2023 - Present

Industrial Barcode Inspection & Reporting System

C# WPF | Cognex SDK | ASP.NET Core Web API | Angular | SQL Server

Built a panel-PC application connected to a Cognex camera to read barcodes, track pass/fail inspections, store failed images, and expose production data through an API and Angular dashboard.

Medical Product Tensile Test & Reporting System

C# Windows Forms | Siemens PLC | SQL Server | Printable QC reports

Integrated a Windows Forms application with a Siemens PLC, compared measurements against SQL reference tables, and generated printable QC forms.

Vision-Based Pattern Inspection System

C#/ .NET | Machine vision | Pattern learning | SQL Server reporting

Created a production-line inspection application for yogurt cups, using live reference images for pattern learning and pass/fail reporting by time period.

Professional Experience

Software Engineer

Robovision | Thessaloniki, Greece | 2021 - 2023

Building Machine Vision applications for Industrial Automation, from feasibility assessment to production deployment. Designing, developing, and supporting vision-based systems in industrial environments. Creating custom in-house productivity solutions.

Audio Engineer / Sound Technician

KEX Hostel, Reykjavik | 2023 - 2025 - SuperSound, Thessaloniki | 2015 - 2020

Managed technical setup, troubleshooting, and live/studio audio operations.
